Secure Fungicide

Performance You Know. Protection You Can Trust.

Since 2018, **Secure® Fungicide** has delivered dependable preventive disease control through the proven contact activity of fluazinam (Group 29). By creating a protective barrier on the turf surface, **Secure** helps stop disease before it starts and protects turf from damaging pathogens.

As a reliable contact fungicide, **Secure** is an important component of resistance management programs, helping support effective fungicide use and sustainable disease control.

Active Ingredient
Fluazinam 500 g/L
Fungicide Group
Group 29
Formulation
Suspension Concentrate
Phytomobility
Contact
Package Size
2 x 3.78 L
